In a context marked by the persistence of economic and political uncertainties in Europe, Trigano recorded sales of €2,328.2 M in 2018/19, up 0.6% compared to the previous fiscal year. Trigano's activity was particularly marked by:

- The policy of significant new motorhomes inventory reduction driven by dealer networks in certain countries, and particularly in France,
- A further strengthening of anti-pollution standards in force since 1 September 2019 (Euro 6d) having caused disruptions in the supply of wheel bases at the end of the fiscal year,
- British leaders' postponements of Brexit having caused local disturbances on the leisure vehicle market,
- Production difficulties in two motorhome factories.

Despite these adverse phenomena, consolidated current operating profit reached €210.4 M and represents 9.0% of sales (9.9% in 2018/2019). Net profit reached €167.5 M (€187.2 M in 2017/2018), or 8.69 € per share.

Thanks to its results, Trigano further consolidated its financial structure, raised its equity to €893.4 M and reduced its net debt to €14.1 M.

During the fiscal year, Trigano invested €44.9 M and carried on the adaptation programme of its management structures and systems. In addition to the strengthening of legal, IT and internal audit teams, Trigano built up an organisation enabling to broadly deploy best practices in its factories.

Outlook

Autumn trade fairs and shows confirmed the favourable reception of Trigano's new ranges by customers, but the increase in orders was locally hampered by the political environment, particularly in Spain and in the United Kingdom. The non-recurrence of destocking phenomena in the motorhome distribution networks should, however, favour the development of the activity in 2019/2020.

Thanks to the demographic evolution of the customer base and the increase in the useful lifetime of populations, attracted by active, simple, economic and close to nature leisure activities, Trigano remains confident in its ability to progress on its European markets. The motorhome is nonetheless a product whose consumption is discretionary and the volume of the market could be locally impacted by a further deterioration of the economic or political context in one or more countries.

In the short term, attentive to the evolution of its markets, Trigano will adapt, if necessary, its production capacity and its costs level to changes in demand. It will intensify its productivity improvement programmes as well as its actions to gain market shares throughout Europe.

Finally, targeted acquisitions may be carried out in order to strengthen Trigano's presence in major markets in the field of leisure vehicles, accessories and trailers.

Dividend

The Executive Board will propose to the General Meeting scheduled for 7 January 2020 the payment of a dividend in the amount of € 2.00 per share.

2019/2020 First Quarter Sales will be released on 7 January 2020

2018/2019 Sales: 2.3 billion euros (+0.6%)

Trigano recorded € 469.8M turnover in the fourth quarter, down 9.4% compared to the previous financial year.

The fourth quarter recorded a positive activity for caravans (sales +7.5%) and static caravans (sales +7.6%). However, motorhome sales (-12.5%) were negatively impacted by the conjunction:

- of the decrease in production of two sites linked to the reimplantation of assembly lines;
- of difficulties in supplying Euro 6d wheel bases which caused downtime.

Trailers deliveries (-2.8%) suffered from the Scandinavian market downturn.

Over the **financial year**, Trigano's sales were stable at 2.3 billion euros.

Motorhome sales (-2.7% at constant scope and exchange rates) were affected by networks inventory reduction policy and by difficulties experienced by some markets impacted by the introduction of taxes or by political or economic uncertainties. Trigano gained however market share in most countries.

Sales of caravans (+3.7%), static caravans (+8.6%) and camping equipment (+18.4%) progressed well while sales of trailers (+1.6%), leisure vehicle accessories (-0.2%) and garden equipment (-0.5%) remained stable.

Outlook

Trigano overcame difficulties related to the introduction of chassis meeting new pollution standards without major damage. The favourable feedback given by distribution networks to Trigano's leisure vehicles new ranges and the non-recurrence of the distribution networks' destocking phenomena should favour the growth of the activity in 2019/2020.

However, the growth of the motorhome market in Europe could be impacted by the persistence of economic uncertainties in some countries and by fiscal policies raising prices on products. Nevertheless, potential effects of recently implemented tax constraints should be offset during the fiscal year by the implementation of a new homologation.

In this context, Trigano will remain attentive to the evolution of its markets and will try to adapt its production capacity and the level of its costs to the trend of demand. Productivity improvement programmes will be intensified during the fiscal year, as well as market share gains actions throughout Europe.
